TruePoint Solutions is now an Approved NCPA Vendor

NCPA members can save time and money on utility billing solutions

Sacramento, CA (**March 10, 2021**) **–** National Cooperative Purchasing Alliance (NCPA) members can now purchase TruePoint Solutions' utility billing products. For the first time, organizations will be able to purchase TrueBill™, our browser-based CIS/Utility Billing solution and TrueCIP, our customer information portal through the cooperative. TruePoint Solutions provides focused software solutions and services for water agencies, special districts, and local government agencies. Our commitment to hard work and integrity makes us the company you can trust to deliver the solutions you need.

NCPA is a leading national government purchasing cooperative working to reduce the cost of goods and services by leveraging the purchasing power of public agencies in all 50 states. NCPA utilizes state of the art procurement resources and solutions that result in cooperative purchasing contracts that ensure all public agencies are receiving products and services of the highest quality at the lowest prices. There are over 90,000 agencies nationwide from both the public and nonprofit sectors that are eligible to utilize NCPS's cooperative purchasing contracts. To learn more about becoming a member visit www.ncpa.us.

TruePoint Chief Executive Officer Kent Johnson said, "Being an approved NCPA vendor is an exciting opportunity. We look forward to offering our utility billing solutions to customers nationwide."

"The NCPA purchasing agreement is an excellent mechanism for organizations to provide high quality services at negotiated rates," said Matt Cohagan, Business Development Manager at TruePoint. "In addition to organizations saving procurement time, it allows customers to realize real cost savings."

About TruePoint Solutions

TruePoint Solutions is a California software and services company, solely focused on Information Technology Solutions for local government agencies, water companies and special districts. The TruePoint team has a phenomenal resume of work experience with local government designing, building, implementing, and supporting complex government applications. Our team members have delivered software applications for water agencies in South Africa, England, Australia, New Zealand, Canada, and the US. This experience has given the TruePoint team an incredible perspective on the industry. TruePoint applications are browser-based and utilize the Microsoft .Net framework. TruePoint is a Microsoft partner and a member of the Microsoft Developer Network.
